

CUR REA

A true philosopher takes into account the CAUSES rather than the EFFECTS growing out of given conditions. Does the average practitioner inquire into the causes? Or does he look at your tongue, count your pulse, give his attention to symptoms, and then give you a potion to reverse the signs of disease of nature and let the disease "run its course?"

We ignore all medical guess work. We seek out the CAUSE and we have the highest medical authority with us to verify our theory. In every case of germ origin and all fermentation is caused by bacteria. Bacteria is the cause of all diseases of nature and let the disease "run its course."

For years Prof. Radam sought a method of destroying disease germs in the human system. Finally a powerful, harmless, and effective remedy was discovered. It has been known for more than a dozen years as

RADAM'S MICROBE KILLER

It is now used throughout the civilized world, and has saved, and today saves thousands from an untimely grave. It stores fermentation and cures Dyspepsia and all Stomach and Bowel disorders. It aids the respiratory system to successfully combat colds, influenza, pneumonia, bronchitis, and all diseases of the lungs. It stops the formation of uric acid in the blood, and cures Rheumatism. It has proven wonderfully effective in Kidney, Bladder and Urinary disorders.

It will bear your investigation, which may mean life and restoration of health to some loved one of your household. It is a powerful, harmless, and effective remedy. It is a powerful, harmless, and effective remedy. It is a powerful, harmless, and effective remedy.

Nerves Fear Out

And grow weak and exhausted when not properly nourished, just as an engine loses its power when the fuel runs low. The loss of nervous power is seen in the failing health and the wasting form. It is felt in the aching head, the throbbing heart, the irritability, indigestion, restlessness and loss of sleep. Rebuild the worn-out nerves, rest the tired brain and add new fuel to the vital fires with the best of all tonics, Dr. Miles' Nerve.

"I was sick with typhoid and malarial fever for three months, and after I recovered from that I was left so weak and nervous that I could not work. I fairly shook all over, and in eating I could hardly hold a fork steady enough to feed myself. I started to take Dr. Miles' Nerve, and received immediate benefits. Three bottles of it cured me."

ARMY IN PHILIPPINES.

No Material Changes Until After Advances From Gen. Chaffee.

Adjutant General Corbin authorizes the statement that no material changes will be made in the army in the Philippines until after the War Department has heard from General Chaffee on the subject. In accordance with orders previously issued General Chaffee will relieve General MacArthur of command of the military forces in the Philippines on the 30th of June and the present expectation is that a general civil government will be established in the archipelago about that time.

General Corbin says that recent developments in the Philippines have caused no change in the general plans of the department for the dispatch of regular troops from the United States to replace the volunteers ordered home for discharge before July 1 next. Outside of the slight reduction of the army, caused by the recall of the volunteers, General Chaffee permits that no change is at present contemplated in the military establishment in the Philippines.

He gives a most emphatic denial to the published reports that Gen. MacArthur has been instructed to immediately reduce the army to 40,000 men, and says that no such order has been issued. General Chaffee has been heard from as to the military necessities of the situation. As a view to relieving all the regular troops which have had a long period of service in the Philippines the Secretary of War has decided to replace them as rapidly as the circumstances permit. The new regulations now in course of organization in this country. A plan has been adopted by which troops will be given one year's service in the United States and two years in the Philippines.

Its operation will result in each regiment always having a battalion in reserve in the United States. Limiting the service in the Philippines to two years and giving the men one year in three in the United States, the Secretary of War undoubtedly will prove a great benefit to the health of the men and of general benefit from a military standpoint. The regular troops in the Philippines will be brought home gradually and the movement will begin as soon as the necessary arrangements can be perfected.

The troops having the longest service in the tropics will be the first to return to the United States. Although there is no present purpose of reducing the military strength in the Philippines, the disposition of the authorities is to withdraw the troops as soon as it can be done with safety to the interests of the United States and the people of the Philippines. It is now recognized that the presence of troops will be required in the Philippines in the future, and the inauguration of the civil government.

One of the Best Features

OF THE PYRAMID PILE CURE

Is the fact that it cures every form of Piles without any part of the body. This desirable point is not obtained by the use of injections, which simply displace and paralyze the nerves of the parts and make matters worse in the long run. But it is done solely by its remarkably healing and soothing effects. And while it thus cures the PILE, it also cures the disease of the rectum, the hemorrhoids, the internal piles, the same time the disease is not merely relieved, but a radical cure is rapidly accomplished. And the point we want to make clear is that THIS IS DONE WITHOUT A PART OF THE PAIN.

The Pyramid Pile Cure has been before the public too long, and its merits recognized by too many people to allow it to be classed with the many sales, impostures, pills, etc., and you run the risk in trying it, at once and without delay and without preparations. If you are ever troubled with any form of piles or rectal disease, do not forget the Pyramid Pile Cure. Prepared by F. A. B. Co., 100 N. 10th St., Philadelphia, Pa. CUBAN COMMISSION

Personnel of the Body of Men Coming Here.

Some Things It is Thought They Will Learn.

RESULTS EXPECTED

Written for The Evening Star.

With the coming of the Cuban commission a better understanding of the present situation is certain to be obtained. On account of the nature of the mission, it may be expected to exert on the constitutional convention when they return to Havana something about their own personality is interesting. Probably also their presence will dissipate the notion which has been encouraged in this country that the convention was made up solely of wild-eyed resolutions representing the ignorance of the island.

All the members of this committee are professional men, and, as it happens, lawyers. They may be taken as fairly representative of their associates; for they represent all shades of opinion from extreme radicalism to timid conservatism. In one sense it is a pity that the commission was not made up entirely of ultra-radicals. The latter, after a while, of the United States could not fail to understand American public sentiment, and whatever their individual views none of them would have been so slow to respond to the influence of the Platt amendment as the others. That was a responsibility which the ultra-radicals were not willing to take, and most of them decided to serve on the committee.

Juan Gualberto Gomez. Juan Gualberto Gomez, who made the report hostile to the acceptance of the Platt amendment, which report never was adopted by the convention, notwithstanding the reports to the contrary, was not willing to be one of the delegation visiting Washington. Yet from the beginning he favored the commission, and he has been a considerable influence in the organization of the delegation. no right to ignore the existence of the Deity. This was the view taken by a majority of the delegates. This position was sustained. Judge Llorente was not able to attend many sessions of the convention because of illness. While not liking Americans of the type that has been prominent in Cuba, he has been looked upon as pro-American in his tendencies, and has been a severe critic of the shortcomings of his own people. He is by far the most picturesque and interesting personality among the delegates.

SCORES OF RIFLE MATCHES

The general orders issued from headquarters Wednesday last announcing the dates of the inspection and muster of the District National Guard have given the members of the organization a subject for extensive discussion and an incentive to renewed interest in all matters pertaining to their place in the District military institution.

The orders were given in full in The Star the day of their issuance and since that time all other guard subjects have been laid aside. The interest in the annual encampment of the militia, which had begun to grow, has received impetus by the setback in the face of the more important duties of muster and inspection. The encampment will take place sometime in July, it is announced, but the dates and the place for pitching the District tents are matters yet to be acted upon. General Wood has not yet decided whether there is to be anything of interest in the military circles outside of a distinct bustle and hurry of preparations for the inspection. The members of the staff and each company commander is anxious to have his own personal equipment and that of his command shall be in the best possible order. It is also desired that the ranks shall be as well filled as possible. The percentage of attendance at the last annual inspection was not exceptionally high, and there were efforts made by the staff and commands to beat the figures recorded at that time. The exhibit at that time was not of the highest quality, and the orders issued Wednesday last, and the company this year parading less than 75 per cent of its enlisted strength will be a record. The officers and men will be required standard of efficiency, and will make the subject of further and specific inspection.

Dates of Inspection. Extracts from the general orders announcing the inspection and muster give the dates assigned the several organizations, as follows:

General staff and non-commissioned staff of the militia at headquarters at 8 o'clock p.m., Saturday, May 4; field and staff, 1st Regiment, at 8 o'clock a.m., Thursday, May 9; 1st Battalion at its armory at 8 o'clock a.m., Saturday, May 4;
